

ASSEMBLY INSTRUCTIONS

Floor Lamp

Short Sku#: 003H7

PRE-ASSEMBLY:

- Please read these assembly instructions carefully before beginning the assembly and save them.
- Unpack all lamp parts from box and lay them out on a flat surface.
Be careful when unpacking the lamp since the wires are connected.
If the wires are pulled out of their connectors, it may result in a bad connection.
- **Notice: Plastic Covers (M) are just packaging material for cord protection.**
Please do remember to remove the plastic covers (M) before assembly the lamp.

TO-ASSEMBLY:

1. Insert the tube (B) onto the base (A) clockwise to tighten.
2. Insert the tube (C) into the tube (B) clockwise to tighten.

Note: Keep cord taut during installation, ensuring it does not get tangled or pinched between the tubes.

3. Remove pre-assembled socket ring (F) from socket (D).
Put the shade (E) onto the socket (D) and secure it with the socket ring (F).
4. Remove pre-assembled socket ring (J) from the socket (H).
Put the shade (I) onto the socket (H) and secure it with the socket ring (J).
If need can use the sleeve (K) to tighten the socket ring (J). (Sleeve K included)
5. Adjust the shade (I) direction as you desired .
6. Insert bulbs (G) and (L) to complete the assembly. (Bulbs not included)

IMPORTANT SAFETY INSTRUCTIONS:

- This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way.
If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.
Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.
- This lamp is for indoor use only.

Balance kits

Installation of Leveling Kit:

After you have fully assembled your lamp and find out that it is leaning toward a certain angle, you can level it using these simple steps:

1. Peel off adhesive on the round cushion ,and attach it on the area that wobbles or needs added height.

2. Depending on how high or low you want the lamp leveled, you can stack the cushion pads together to achieve required balance.
